

Assignment 1

Q.1. check positive Number.

TASK :-

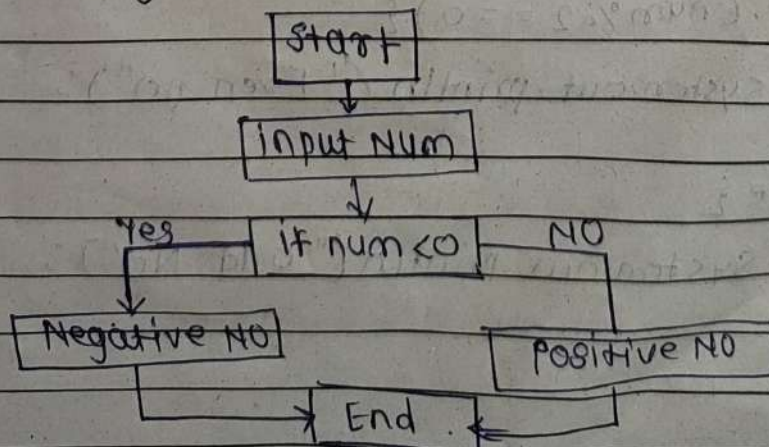

Next :-

```

class PositiveNumber {
    public static void main(String[] args) {
        int num = 10
        if (num > 0) {
            System.out.println("positive NO");
        }
        else {
            System.out.println("Negative NO");
        }
    }
}
  
```

Q.2 Check Negative number.

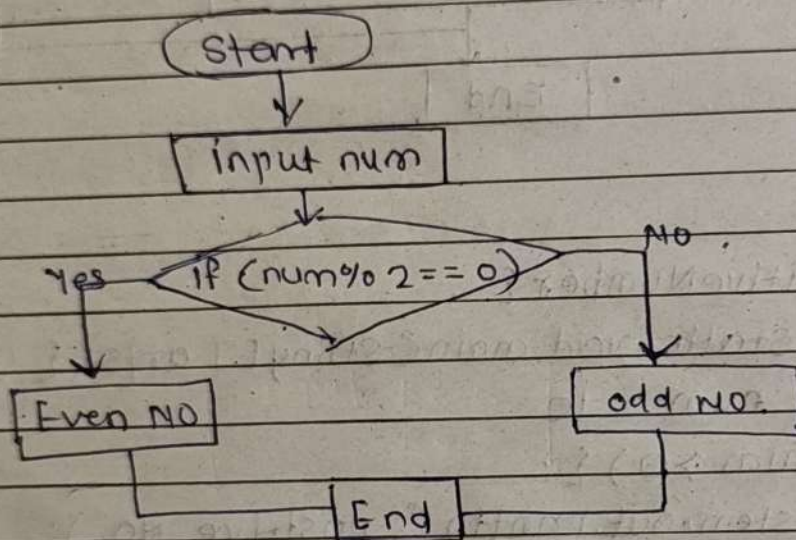

Next step:-

```

class NegativeNumber {
    public static void main (String[] args) {
        int num = -10;
        if (num < 0) {
            System.out.println("Negative No");
        }
        else {
    
```

3. Checks odd or even no.

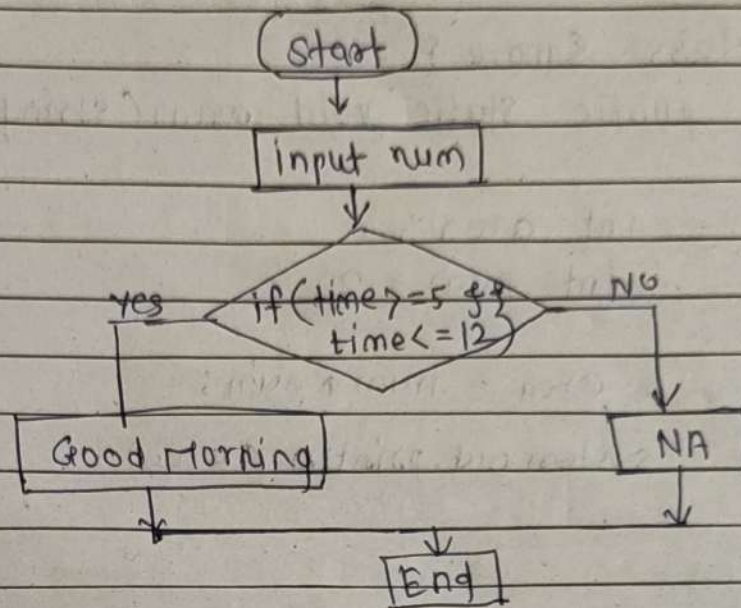

Next step.

```

class EvenOddNumber {
    public static void main (String args[]) {
        int num = 10;
        if (num % 2 == 0) {
            System.out.println("Even no");
        }
        else {
            System.out.println("odd No");
        }
    }
}
    
```

4) Display Good morning message based on time

task:-

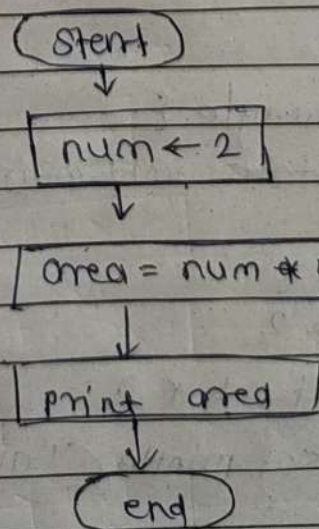

Next step:-

```

class GoodMorningMessage {
    public static void main (String[] args) {
        if (time >= 5 & time <= 12) {
            System.out.println("Good morning");
        }
        else {
            System.out.println("NA");
        }
    }
}
  
```

5) Print area of square

Next step :-

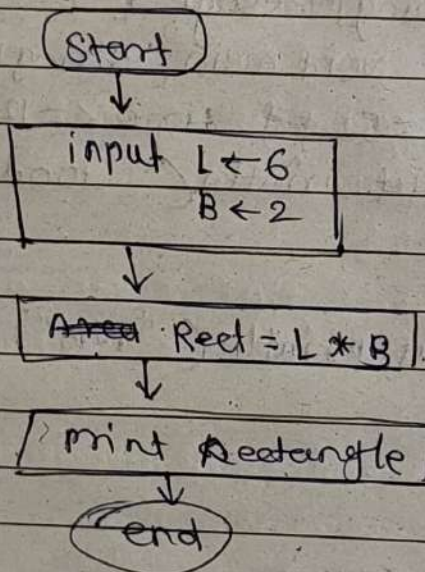

```
class Square {
    public static void main(String args[]) {

        int area;
        int num = 2;

        area = num * num;

        System.out.println(area);
    }
}
```

6. Area of Rectangle

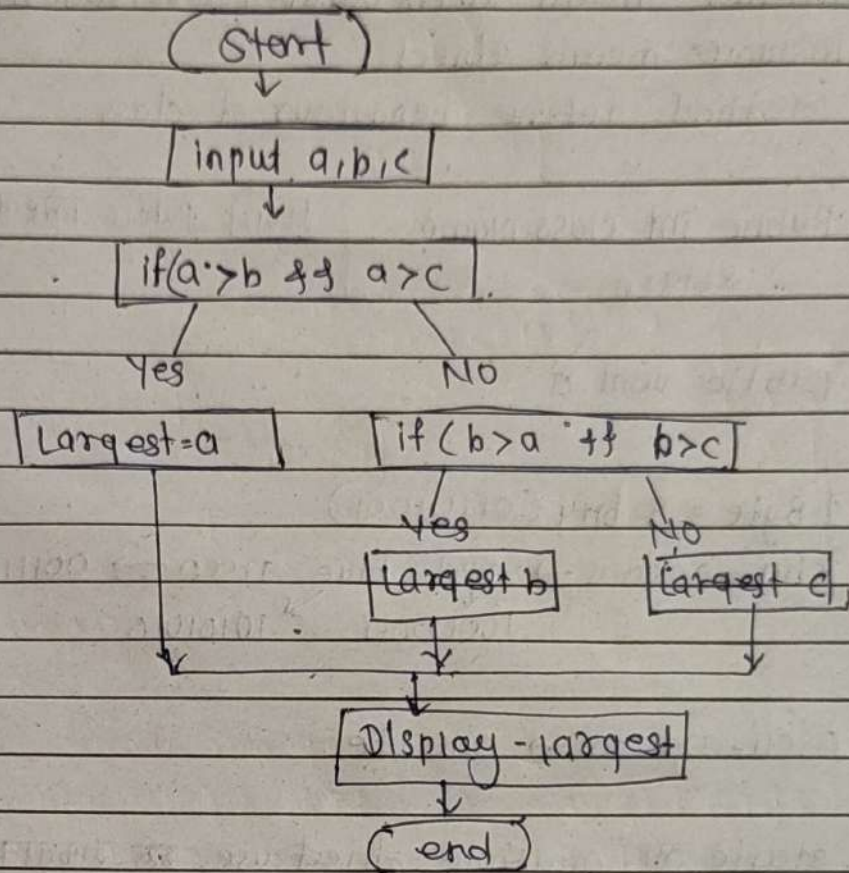

Next step :-

```
class Rectangle {
    public static void main(String args[]) {

        int L = 6;
        int B = 2;
        int Rect = L * B;

        System.out.println("area of rectangle " + Rect);
    }
}
```

7) The largest of three number.

```
class Number {
```

```
    public static void main (String args []) {
```

```
        int a = 2;
```

```
        int b = 9;
```

```
        int c = 4;
```

```
        if (a > b & a > c) {
```

```
            System.out.println("The largest NO " + a);
```

```
        }
```

```
        else if (b > a & b > c) {
```

```
            System.out.println("The largest NO " + b);
```

```
        }
```

```
        else {
```

```
            System.out.println("The largest NO " + c);
```

```
        }
```

```
    }
```

```
}
```
